

Patrick Diehl

Curriculum vitae

Education

- 2017 **PhD**, *Applied mathematics*, University of Bonn, Germany.
2012 **Diploma**, *Computer Science*, University of Stuttgart, Germany.

Research experience

- 2017–now **Postdoctoral fellow**, *Laboratory of Multiscale Mechanics*, Polytechnique Montréal.
o Benchmark peridynamic simulations against experimental data for composite materials
o Application of peridynamic virtual field methods to extract material properties from experimental data (with Rolland Delorme)
o Assembly of experimental data for comparison with simulations (with Ilyass Tabiai)
- 2013–2017 **Research Assistant**, *Institute for Numerical Simulation*, University Bonn.
o Modeling and simulation of crack and fractures in solids using peridynamic
- 2012–2013 **Research Assistant**, *Institute for Simulation of large Systems*, University Stuttgart.

Visiting positions

- 2015 **Guest Research Assistant**, *Center for Computation and Technology*, Louisiana State University.

Certificates

- Baden–
Württemberg
Certificate
- Certificate for successful completion of the program in higher education pedagogy by the center for educational development of the state of Baden–Württemberg.

Research Interests

- Computational
engineering
- o Peridynamics theory for composite materials
 - o Benchmark of simulations against experimental data.
 - o Assembly of experimental data for comparison with simulations

Département de génie mécanique – C.P. 6079, succ. Centre-Ville
Montréal (Québec) Canada – H3C 3A7

✉ patrick.diehl@polymtl.ca • [diehlpk](https://twitter.com/diehlpk) • [diehlpk](https://www.linkedin.com/in/diehlpk)

- High Performance Computing
- o Large simulations on hybrid cluster architectures.
 - o The C++ Standard Library for Parallelism and Concurrency (HPX)

Publications

Journal articles

Michael Bußler, Patrick Diehl, Dirk Pflüger, Steffen Frey, Filip Sadlo, Thomas Ertl, and Marc Alexander Schweitzer. Visualization of Fracture Progression in Peridynamics. *Computer & Graphics*, 67:45–57, 2017.

Patrick Diehl, Fabian Franzelin, Dirk Pflüger, and Georg C. Ganzenmüller. Bond-based peridynamics: a quantitative study of Mode I crack opening. *International Journal of Fracture*, 2(201):157–170, 2016.

Proceedings

P. Diehl and M. A. Schweitzer. Efficient neighbor search for particle methods on GPUs. In M. Griebel and M. A. Schweitzer, editors, *Meshfree Methods for Partial Differential Equations VII*, volume 100 of *Lecture Notes in Computational Science and Engineering*, pages 81–95. Springer, 2014.

P. Diehl and M. A. Schweitzer. Simulation of wave propagation and impact damage in brittle materials using peridynamics. In Miriam Mehl, Manfred Bischoff, and Michael Schäfer, editors, *Recent Trends in Computational Engineering – CE2014*, volume 105 of *Lecture Notes in Computational Science and Engineering*, pages 251–265. Springer, 2015.

F. Franzelin, P. Diehl, and D. Pflüger. Non-intrusive uncertainty quantification with sparse grids for multivariate peridynamic simulations. In M. Griebel and M. A. Schweitzer, editors, *Meshfree Methods for Partial Differential Equations VII*, volume 100 of *Lecture Notes in Computational Science and Engineering*, pages 115–143. Springer International Publishing, 2014.

Thomas Heller, Hartmut Kaiser, Patrick Diehl, Dietmar Fey, and Marc Alexander Schweitzer. Closing the Performance Gap with Modern C++. In Michaela Taufer, Bernd Mohr, and Julian M. Kunkel, editors, *High Performance Computing: ISC High Performance 2016 International Workshops, ExaComm, E-MuCoCoS, HPC-IODC, IXPUG, IWOPH, P³MA, VHPC, WOPSSS, Frankfurt, Germany, June 19–23, 2016, Revised Selected Papers*, volume 9945 of *Lecture Notes in Computer Science*, pages 18–31. Springer International Publishing, 2016.

Technical reports

Patrick Diehl, Robert Lipton, and Marc Alexander Schweitzer. Numerical verification of a bond-based softening peridynamic model for small displacements: Deducing material parameters from classical linear theory. Technical report, Institut für Numerische Simulation, 2016.

Invited talks and Presentations
